

IVAN CARIDAD

Technical Artist

Barcelona, Spain | caridadivan.3d@gmail.com | +34 691 35 01 90

Technical Artist with 4+ years of experience shipping console and PC titles, including well-known IPs, under strict mobile and Nintendo Switch GPU budgets. Skilled in shader development, rendering and memory optimization, character rigging, and Python-based pipeline tooling. Proven ability to define studio art workflows and mentor technical art teams while delivering shippable, budget-constrained assets on schedule.

WORK EXPERIENCE

Pipeline TD — Mago Production

Mar 2026 – Present

- Build and maintain production internal tools for artists across the studio, focused on automation and workflow efficiency.
- Developed a Python pipeline service for production tracking, integrated with Kitsu.
- Built artist-friendly tools, reducing friction with technical aspects of production.
- Integrated Photoshop, Toon Boom Harmony, and Blender into a unified workflow.

Technical Art Teacher — LEVEL UP [Game Dev Hub]

Nov 2025 – Jul 2026

- Teach technical art for games in Unity: shaders, optimization, and best practices.
- Design course material and hands-on projects covering the full art-to-engine workflow.
- Mentor students throughout the full art-to-engine workflow and final master's project.

Technical Artist — Petoons Studio

Dec 2022 – Aug 2025

- Technical artist across multiple shipped titles including well-known IPs, covering shading, rendering performance, character art tech, and the art workflow the team worked with.
- Developed shader sets under strict Switch and mobile GPU budgets.
- Responsible for rendering and memory optimization — frame profiling, batching/GPU instancing, impostors.

- Rigged and skinned characters in Maya. Set up in-engine cloth and rigid-body physics; built particle VFX.
- Defined the studio art integration workflow and automated base-prefab creation to remove shader/material mismatches.

Character Rigger Intern — Studio Kimchi

Nov 2021 – Jan 2022

- Rigged and skinned characters in Maya for animation production.
- Followed the studio's rig conventions and iterated on animator feedback.

EDUCATION

International Bachelor Degree in 3D Animation — L'IDEM Barcelona

Oct 2017 – Jun 2021
